SERVICE 07 · FIXED SCOPE

OT Risk & Visibility Insight

A complete, independent view of your OT estate: every asset, every exposure, ranked against business and compliance risk.

DIAGNOSE DESIGN BUILD OPERATE

The problem

Most organisations struggle with a lack of visibility across their OT environments. Assets are often unmanaged, undocumented, or connected in unexpected ways, while vulnerabilities remain hidden until an incident occurs. That makes it hard to prioritise investment or demonstrate compliance.

The value

We map every asset, uncover vulnerabilities and assess risk against business and regulatory requirements. Leadership gets a baseline to measure progress, satisfy regulators and build the business case for investment; technical teams get a clear place to start.

WHO IT'S FOR

CISOs, OT leaders and compliance managers who need a clear, independent view of their OT risk posture.

4–6 weeks

Indicative duration, depending on estate size and access.

ALIGNED TO

NIS2 · IEC 62443-3-2

Key benefits

- Full OT asset discovery
- Vulnerabilities identified and prioritised
- Compliance baseline (NIS2, IEC 62443)
- Board-ready view of risk

Deliverables

- Asset inventory
- Vulnerability & risk report
- Prioritised remediation roadmap
- Executive summary

Method

01 **Discover.** Identify assets and connected systems.

02 **Assess.** Scan for vulnerabilities and gaps.

03 **Prioritise.** Rank by impact and likelihood.

04 **Report.** Executive and technical outputs.

TYPICAL NEXT STEP

Findings feed directly into the Design stage.

DESIGN · P.12

Roadmap & Strategy Development
4–6 weeks

DESIGN · P.14

Architecture & Network Segmentation
6–10 weeks

THE RESULT

A complete inventory of OT assets, a prioritised view of vulnerabilities and a remediation roadmap. Leadership gains confidence; technical teams get actionable next steps.

WHY HARPOON

Unlike vendor-led assessments, Harpoon is independent and OT-specific. Findings balance security with operational reality, so they are practical, prioritised and immediately actionable.
